

Star Wars CAL

Below are images of each of the panels for the Star Wars CAL.

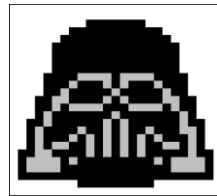

There is one large center panel (40x75), two long side panels (90x11), and six smaller inner panels/squares (25x25).

The center panel has an alternate version (May the Force Be With You), and there are six alternate panels/squares for the inner part of the blanket. Each panel is worked in straight HDC and will have a SC border worked around the edge in the background color (I Love This Metallic Yarn in Black Sparkle).

CAL Notes:

*Color amounts listed above only take into account the panels I will be working and the background color I will be using. If you are going to use different background color or any of the alternate panels, you may want to add up the number of skeins required by hand to make sure you have enough of the right colors.

**The values in this PDF chart for the number of skeins required is rounded to the nearest hundredth of a skein. If a value reads 0.00 on the chart, it means that there is only a small amount of yarn required for that color--it does not mean that you don't need that color!
